In response to applicant's communication dated on 03/20/2007, regarding the last restriction/election requirement, the following corrective action is taken.

The period for reply of 1 MONTHS set in said Office action is restarted to begin with the mailing date of this letter.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 8-20, drawn to a process, classified in class 712, subclass 220.
 - II. Claims 14, and 21-25, drawn to an apparatus, classified in class 701, subclass 70.
2. The inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practice a process of guiding a tourist traveling to a specified destination either using an audio guidance or text message stored in a removable storage device.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
